

Mosquito Larvae

- Aedes
- Anopheles
- Culex

Anopheles

There is clearly only one part in the terminal area. It can be saddle or siphon. But looking at the darkness, it can be siphon

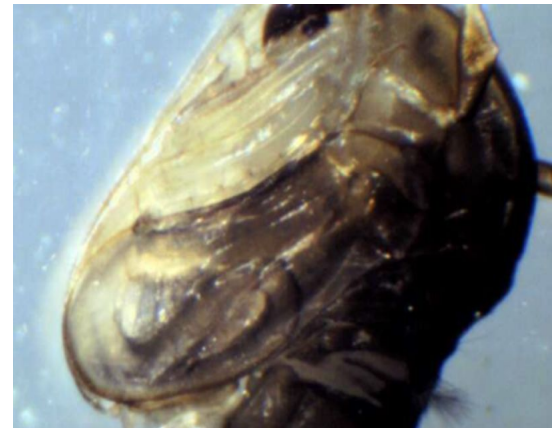

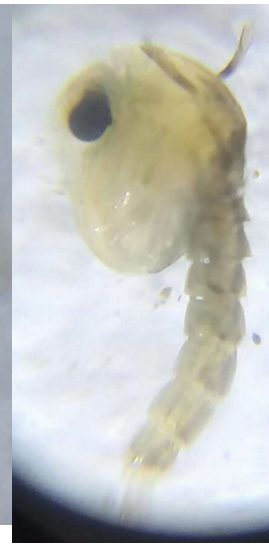

Anopheles

There are two parts in the terminal area - saddle and siphon

Culex

- Culex has a sharp siphon??
- Head can be bigger than thorax?
- Can't separate head and thorax
- Can't identify the part
-

- *Culex*
